Seal Manufacturer Codes

List of the assigned codes

The seal manufacturer code as defined in the Annex 1C chapter 5.3 Sealing, is the code identifying a manufacturer of certified seals according to the standard EN 16882.

The Laboratory competent for Interoperability tests maintains and publishes the list of seal manufacturer codes on its web site (Requirement 401 of Annex 1C).

Communications regarding seal's activities (new manufacturers, new laboratories, ...) must be addressed to: jrc-iot@ec.europa.eu

Important

NB. The requested seal manufacturer code will be inserted as soon we have received a copy of the corresponding certificate.

NB. Only EN 16882 certified seals are allowed to bear the T logo.

- **Workshops are not allowed to place a seal without T logo on smart tachographs after the expiry date of self-certification (Last use of seals without T logo)**
- **As the seal shall be replaced every two years, no seals without T logo can be found on a smart tachograph more than two years after the expiry date of self-certification (Last use of seals without T logo).**
- **Seals without T logo can still be installed on analogue and digital tachographs after the expiry date set out below. The certification requirement is compulsory on the smart tachographs only.**

List of Seal Manufacturer Codes

Company Name	Code Value	Code Assignment Date	Expiry date of self-certification (Last use of seals without T logo in smart tachographs)	EN 16882 Certification Date
Royal Pack	RP	18/05/2018	28/02/2022	15/11/2021
Precintia Seguridad (formerly Precintia International)	PR	29/06/2018	28/02/2022	27/01/2022
Unisto AG	UN	07/07/2018	28/02/2022	16/11/2021
Bednorz GmbH	BP	10/07/2018	28/02/2022	20/01/2022
KISSLING ELEKTROTECHNIK GMBH	KE	07/12/2018	28/02/2022	14/02/2022
Dilogics Europa S.L.	DL	27/06/2019	28/02/2022	
Acme Seals Ltd	AS	23/09/2019	28/02/2022	25/02/2022
Mega Fortris Group	MF	01/08/2022		13/07/2022
