

Unisto Synergie

- A special Security Seal system to seal Truck Doors, Containers, Trailers and Railway Wagons. A special Tamper Evident Barrier Metal Padlock with a Hasp diameter of 10.0 mm deters opportunistic theft. A plastic security sleeve protects the locking cylinder on the metal hasp and provides a barrier against opportunistic unauthorised access. Comes along with a unique number on both Security Plastic Sleeve and the Metal Padlock for efficient data capture. Unisto Synergie is available in a range of plastic colours for logistical control.

Features of this security seal

Type of Seal

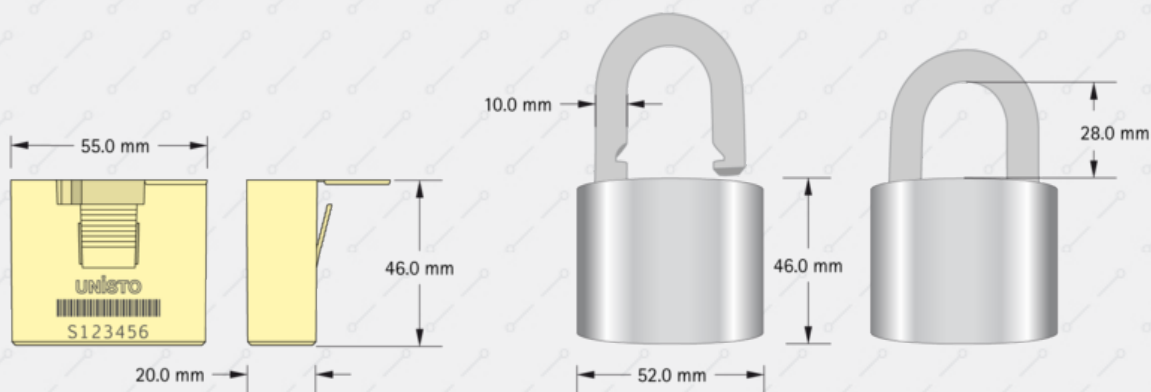

Padlock Type Seals

Application

Container

- › Synergie prevents any unauthorised access to the key hole
- › The purposeful design frustrates attempt to dislodge Synergie from the padlock due to the unique „bridge“ that holds the seal in shape at all time
- › Intelligent design concept that leaves marks or signs of any attempted attack
- › Various colours for logistical functions
- › Numbering in barcoded format streamlines operations
- › Mats of 5 seals allows sequential distribution
- › Hasp diameter allows sealing of holes and slots from 12 mm plus
- › Hasp made of stainless steel with high tensile strength
- › Assigned number engraved on lock prevents unnoticed exchange of lock
